REGISTERED EUROPEAN DESIGN

Patent Pending

The Denver[™] Elite bollard combines a palette of design variables, which include aesthetic appeal, quality, durability and performance.

The Denver[™] Elite bollard is a modern aesthetic design that incorporate LED technology. Despite its stylised design the prismatic optical performance of the bollard is still industry leading offering a choice of distributions. The trilobe design profile with patent pending decorative light line membrane is a progression of everything we've learnt from our existing bollard whilst taking new technologies and environmental issues into consideration.

The product has been designed to incorporate a heat barrier that enables a 'cool to touch' feature and ensures that the product adheres to BS ENISO 13732-1. The membrane is mounted within the cap itself ensuring that it meets the 'cool to touch' standard at all times. In addition the barrier allows us to create a unique 'light line'. Giving you a safe and stylised product in one.

specification

The luminaire shall consist of an extruded aluminium body, housing integral control gear for LED technology. The optical arrangement shall consist of a prismatic lens or prismatic lens with louvre. The top tri-lobe gasket enabling the bollard to achieve EN60598-1 (patent pending) is secured between the top cap and body via three stainless steel nuts. Root mounted option available. The luminaire complies to EN60598 with a range of options and accessories.

lamp types

1,000 or 2,000 lumen package LED

TM66 CEAM-Make rating

Preliminary Rating: 2.2 (Definite/substantial progress to circularity)

approvals

> BS EN60598-1	> BS ENISO13732
> BS EN55015	> BS EN62031
> BS EN61000-3-2	> BS EN62384
> BS EN61000-3-3	> BS EN62560

ip rating

IP659

light distribution

features and benefits

Contemporary styling

> Unique 'registered' tri-lobe design giving an aesthetic appeal that complements today's modern architecture

High Quality Construction

- > Durable and robust design via three securing rods and nuts
- > Fully weather sealed

Single, Double or Triple lens

> Unique lens layout that is suitable for a wide range of applications

Louvre with Prismatic Lens

> Gives the bollard additional uplight cut-off. A first in any bollard

Decorative 'Patent Pending' Light Line

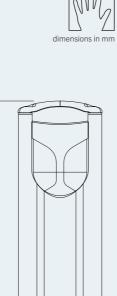

> Gives the product a unique style > Cool to touch. Product complies to BS ENISO 13732-1

Available in 2 heights

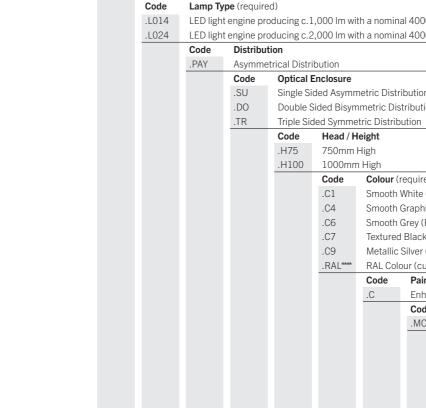

> Flexibility > Different visual effects

Vandal resistent

> Robust styling and build process. > Patented tri-lobe design enables stability

750 or 1001
